Student Activity for Transparency 93

OUR CHANGING UNIVERSE

How big do you think the universe is? These drawings show our galaxy, the Milky Way, viewed from several different perspectives. The first drawing shows the Milky Way as it appears from Earth.

1. Look closely at frame B of the drawing. How would you describe the Milky Way galaxy as it appears here?
2. Look at frame C of the drawing. What conclusions can you draw from seeing the Milky Way from this point of view?
3. Look at frame D of the drawing. What conclusions can you draw from seeing the Milky Way from this point of view?
